Welcome to you Worksheet.

Here's how It Works:

This worksheet is a condensed version of the 7 Day Workbook you can find in my store. It's 7 questions designed to help you flesh out your book idea.

Answer each question in as much detail as you can. Engage with it fully and you'll get the best results.

1. What genre of book is this?

2. What is the scope of this book?

In what space and what time is it set?

3. Who are your main characters?

Are they all necessary?

4. Who's telling the story?

From whose point of view (POV)?

5. How do your characters develop?

Where do they start? What do they go through? Where do they end up?

6. What happens in the story?

What is the actual story arc? Try to summarize the story in no more than 5-7 sentences.

7. Why are you writing this book?

What will keep you motivated to continue?
